ABOUT ME

WordPress, WooCommerce & Shopify Developer specializing in custom website development and scalable eCommerce solutions. Skilled in responsive web development, theme customization, website optimization, and API integrations to deliver secure, high-performance digital experiences.

WORK EXPERIENCE

Wordpress & Shopify Developer | Amanra Digital

Jan 2026 Present | Full-time, Onsite

At Amanra Digital, I worked on developing and managing WordPress and Shopify-based eCommerce websites, contributing to theme customization, store setup, and performance optimization. I handled technical configurations, improved website functionality, and ensured responsive and secure deployments. My role strengthened my expertise in online store workflows, payment integrations, and post-launch maintenance while delivering efficient and business-focused web solutions

Key Responsibilites :

- Customized WordPress and Shopify themes based on business requirements
- Managed product uploads, store configuration, and payment gateway integration.
- Optimized website performance, speed, and responsiveness.
- Implemented plugins and third-party integrations to enhance functionality. • Provided testing, troubleshooting, and ongoing website maintenance support.

Wordpress Developer | Devoski Systems

May 2025 - Dec 2025 | Full-time, Onsite

As a WordPress Developer at Devoski Systems, I design and develop high-quality, responsive, and performance-driven websites for clients across eCommerce, corporate, coaching, and service-based industries. I specialize in transforming design concepts into fully functional WordPress solutions with strong attention to UI/UX, speed optimization, and SEO best practices. I collaborate closely with cross-functional teams to deliver secure, scalable, and conversion-focused digital experiences aligned with business objectives.

Key Responsibilities :

- Designed and developed custom WordPress websites from concept to deployment.
- Converted Figma and design mockups into pixel-perfect, fully responsive websites.
- Built and managed WooCommerce stores with secure payment gateway integrations.
- Optimized website speed, performance, and on-page SEO for improved visibility.
- Integrated third-party tools, APIs, CRMs, and marketing automation systems.
- Managed hosting setup, website migrations, security implementation, and ongoing maintenance.

EDUCATION

IQRA UNIVERSITY (GULSHAN CAMPUS)

Bachelors of Science Computer Science

2021 - 2025
